

Maritime frame with serviette technique

Instructions No. 3015

🔪🔪🔪 Difficulty: Beginner

🕒 Working time: 3 Hours

With this **picture frame**, designed using the **napkin technique**, the holiday feeling comes straight into your four walls. The beautiful picture frame enchants with its **maritime look**, which is created by embossed motifs such as seagulls and signs.

It's that easy to design the frame:

Prime the inner part of the **picture frame** and a sheet of **embossing foil** with antique white **craft paint**. Cut the napkins to fit the frame. Once dry, stick the top, printed layer of the napkin varnish to the frame or embossing foil. To do this, first coat the areas to be covered with adhesive and then place the napkin motif on top and coat it with adhesive again.

Cut out the motifs on the embossing foil using the tweezers. Then place the motif face down on the special mat and emboss with the embossing pens: This allows certain areas on the motif to be emphasised and creates an impressive 3D effect. Glue the motifs to the frame with VBS handicraft glue.

Pluck small tufts from the **pampas grass** and fix them in place with handicraft glue. Stick on some **shell granules** as well.

Once dry, attach **picture eyelets** to the back of the picture frame and attach the hanging ribbon to them.
