

Matroschka im Pailletten-Look

Instructions No. 259

🔪🔪🔪 Difficulty: Advanced

🕒 Working time: 1 hour

Bright patterns and especially the colourful matryoshkas characterise the colourful Russian folklore, which is finding more and more friends all over the world. The striking features can also be wonderfully used in modern home decoration and in everyday life. In order to make the strong colours shine, they are often backed with a black background and the surfaces are painted glossy

The popular Russian wooden doll is depicted on this Stretched Canvas as a glittering sequin picture. Especially practical: With sequin glue you can realize this fancy decoration idea on almost any surface.

It's that simple:

Cut the **fabric** to size approx. 40 x 50 cm and glue it with wood glue to Stretched Canvas . Turn the excess fabric backwards and fix it to the wooden frame with tacks.

Enlarge the **motif template to 200%** with the photocopier and cut it out. Place Stencil on the Stretched Canvas and border it with Tailor chalk

The **Sequins** on the headscarf and body, for this purpose apply the sequin glue to small areas and place the Sequins individually with a tweezers slightly overlapping. It is sufficient if the Sequins have a small contact point with the glue.

Let the glue dry well. Then design the **face with Handicraft paint** and finally glue the glitter cord with hot glue around the Stretched Canvas .
