Mobile with little monsters

Instructions No. 2820

Difficulty: Beginner

Working time: 1 hour

Now you can easily make this fun monster mobile yourself. Simply print out the template and colour in the little monsters with the edding 14 Funtastics fibre-tip pens. Your parents are sure to help you thread them on with a needle and thread.

First print out the template with the little monsters on white paper. Then you can choose your favourite colours from the set and paint the monsters with the thick fibre-tip pens according to your mood. Now you can cut out the coloured monsters.For the next steps it is best to call adults for help:Attach a monster to the thread with the sewing needle and thread two to three pompoms on at a little distance. The mobile looks especially funny if you attach the monsters at different heights. Finally, all you need to do is knot all the mobile parts to the eyelets on the rod.

Have fun with the monster window decoration!
