

Motifs made from crepe paper balls

Instructions No. 2966

🔪🔪🔪 Difficulty: Beginner

🕒 Working time: 2 Hours

These pictures with **crêpe paper balls** look cute, are a great activity for children and also promote concentration and motor skills. Great crafting hours are pre-programmed and the result can be used as a window picture or you can stick a stick to the back of the figures - and they make great plugs!

This is how the pictures are made:

Print out the **templates** and transfer them to the craft cardboard sheet using graphite paper. Then cut out the motifs. Tear the **crêpe paper** into small pieces and roll into small balls. Gradually coat the areas to be glued with VBS **handicraft glue** and stick the "Knüddel" onto them. Depending on your preference or stamina, the figures can be completely or only partially glued on.

Glue on the wobbly eyes with VBS handicraft glue. Draw on the nose and mouth with a black pen.

Bend a piece of **chenille wire** in the middle for the antennae. Roll up the two ends. Glue the bent end to the craft cardboard sheet from the back.

Article information:

Article number	Article name	Qty
