Natural gift wrapping for Christmas

Instructions No. 3411

Difficulty: Beginner

Working time: 30 Minutes

Christmas is just around the corner and nothing says more about your creativity and attention to detail than carefully wrapped gifts. With our simple instructions, you can add a special touch to your gifts using natural materials. This DIY-Wrapping method is not only only quick, but also a beautiful way to make your gift unique.

Step 1: Wrap your gifts

Wrap your gift carefully in wrapping paper. For a natural look, use kraft paper, which can be printed but should not dominate the decoration. Once your gift is securely wrapped, you can tie it up with jute yarn or a decorative cord. Use your creativity with the wrapping techniques and leave room for the accessories.

Step 2: Decorate with natural materials

Decorate your gift with cones, dried fruit, cinnamon or berries. Mix the materials to your liking and try out different styles. Attach the elements with hot glue to make sure everything sticks and looks good at the same time. Be experimental and use the materials in different sizes and shapes to create a dynamic design.

Step 3: Cut out the name tags

To ensure that no gifts are mixed up, the name tags must also be included. To do this, draw different shapes such as stars or hearts on the back of the tree bark and cut them out using sturdy craft scissors. Avoid thicker areas on the bark to protect your scissors. Then punch a hole with a hole punch and attach it to the gift with a piece of cord or jute yarn .

Your presents are now ready for their big show under the Christmas tree! Enjoy the creative work and the joy you spread while giving.
Ready to put your gifts in the limelight and get all the materials you need? Check out our online store and find everything you need to turn your Christmas gifts into real eye-catchers!

Must Have
