Painting porcelain made easy with the edding Porcelain Brush Pen

The edding Porcelain Brush Pen gives you the opportunity to create personalized artworks on your new porcelain items.

What is the edding Porcelain Brush Pen?

The **Porcelain Brush Pen** by edding is the ideal tool for creating creative designs on porcelain, glass, and ceramics (oven-proof and glazed). On one hand, you can apply color evenly and precisely like a pen, while on the other hand, thanks to the flexible tip, it's great for artistic painting of the color, just like a brush. Therefore, you can create both fine details and flat patterns with a variable line width of 1 - 4 mm. The colors are rich and creamy to apply, so they won't run.

The brush pen is perfect for decorating dishes, vases, pots, or even pet bowls - ideal for pet owners who want to give their loved ones a personal bowl. At work, labeled dishes ensure your coffee makes it through the morning safely.

Materials needed:

To get started, you need the edding Porcelain Brush Pen and something suitable that you want to design. You'll achieve the best results on objects with a white or light-colored background.

Instructions for decorating with the edding Porcelain Brush Pen:

1. Thoroughly clean the surface of the porcelain to remove dust and grease.
2. Start your design, let your imagination run wild!
3. Allow the painted piece to dry for 15 minutes and preheat the oven to 160°C.
4. Bake the color onto the porcelain in the oven for 25 minutes. Afterwards, the painted porcelain will be dishwasher safe, and the design will be durable. After the oven, it's suitable for microwave use.

Don't forget to store the pens horizontally after use.

Extra tips for painting porcelain:

- If color areas overlap, allow the color to dry before applying the overlapping color.
- Avoid painting areas that will come into direct contact with food, as the colors from the Porcelain Brush Pen are not food-safe.
- Accidental mistakes can be corrected with a damp cotton swab before baking.
