Create paper flowers wall decoration

1. Coat the wooden sign with wood varnish. This seals the surface and at the same time highlights the wood grains beautifully. Allow the varnish to dry completely.

2. Print out the template for the vase and transfer it to the embossing board. Cut out the vase. To make the vase more stable, you can also stabilise it with another layer of embossing card.

3. Punch out hearts and ovals from the different papers with the motif punches and fold them in half. Assemble a flower from each of 7 hearts of the same size.

4. Glue the vase to the bottom of the board and arrange the flowers and leaves on top. Fix everything in place with craft glue.
