Reindeer from cardboard rolls

Instructions No. 443

Hello, Rudi the reindeer with the red nose brought his friends! The funny figures with the swaying legs sit on your windowsill and wait together with you for from Santa Claus to come sleighing.

Here's how it's done:

The **Cardboard roll** and the **Polystyrene ball** are painted with brown Handicraft paint . This becomes the head and body of the reindeer. The **wooden feet and hands are** painted **red** . As soon as the paint is dry, two 4 cm long pieces from red-white **Knitted tube** cut off. Simply pull the Knitted tube over the wooden legs.

For the swinging legs, twist two brown **chenille** wires together, cut them into two equal parts and glue them with hot glue into the wooden legs and into the Cardboard roll .

For the sweater, cut a 4 cm long piece Knitted tube (white) and pull it over Cardboard roll . The arms are made exactly like the swinging legs, only this time from white Chenille wire.

In the next step the ball is painted with a light brown oval. The Handicraft paint for this best mix brown and beige color. This represents the snout of the reindeer. When the paint is dry, use a fine brush to paint the nose and mouth and **Wobbly eyes** stick on.

For the antlers, twist three chenille wires together and cut off the ends. Then prick two holes in the ball with the scissors and glue the antlers into these holes. The finished head is now glued to Cardboard roll .

Now paint only still with a very **fine brush** or a red felt-tip pen a snowflake on the sweater and tie a piece of Knitted tube as a scarf around the neck - ready is a funny reindeer.
