School Cone Mermaid

Instructions No. 1769

Difficulty: Beginner

Working time: 2 Hours

Your child is a **mermaid fan** and you would like to give your offspring great pleasure? What could be better than making your own **school bag** for the special day of the beginning of school. With our **handicraft instructions** you will definitely succeed. And this great sparkling fin is guaranteed to make your child's eyes shine.

That's how you make the great mermaid fin:

Glue the **schoolbag** to the edges with **Handicraft glue** together.

Print out the template of the fin and transfer it four times to the selected -plates**.Foam sheets** Cut them out. Now coat the fins with **Handicraft paint** or sparkling **Viva Decor Maya Gold paint**. For our fins we **used** the **colour "Berlin Flip Flop"**, so that the fins are iridescent later.

After drying, place 2 fins on top of each other so that the painted areas are on the outside. Glue them **together** at the edges with **hot glue.** Leave the upper Lace ones open. Now fill the fins with some **cotton wool.**

Before you glue the fins to the school bag, punch with a **Craft Punch** Circles made of **glitter paper** and **holographic cardboard**. Glue the circles to the school bag in a flaky manner.

Then the tip of the school bag is glued into the opening of the fins. To do this, first glue one fin to the tip of the school bag and repeat this on the other side with the second fin. To decorate the edges you can glue sequin

tape **on it**.

Now print out the template for the stars. The larger star is transferred twice on the holography cardboard and the smaller one on any glitter paper and cut out. Glue the glitter star on the big star. Now write your child's name on the glittering star using a **marker**. The stars are now glued to the middle of the fins

Finally, place a sheet of violet glue in the sides of the school bag opening **Straw silk paper** glued. The school bag can now be closed with the sequin tape after filling.

Filling tips: In addition to the classic school bag filling such as sweets and school utensils, your child would certainly also appreciate great handicraft items. How about cuddly **and warming animals to do it yourself**, for example, **Modelling clay** or you give him a nice homemade gift?

Must Have

School gift bag from photo cardboard, Blue

Grammage: 300 g/m²
Diameter (outside): 20 cm
Height: 68 cm
Material: Paper
