Sewing fabric lining silos

Instructions No. 1961

Difficulty: Beginner

Working time: 2 Hours

You probably know the situation - there are always little things lying around and you never have everything at hand**.** With our **utensils** you can change that! They are simply sewn and store many little things like your sewing utensils, your jewellery or hair clips and bathing accessories. Due to the **practical suspension** they do not only look decorative, but can be hung up where they are needed most.

This is how the organizers are sewn:

Instructions for 1 Organizer:

Download the **templates** and transfer them to your desired fabrics **and fleece**. Please note that the template is placed at the fabric break. Cut this with 1 cm seam allowance. All in all you need the cuttings once from your outer fabric, once from lining fabric and once from volume fleece and approx. 10 cm bias tape

First iron the volume fleece onto the **lining fabric**. Follow the manufacturer's instructions for the fleece.

Now place both the outer fabric and the lining right sides together at the breaking edge. Close the side and bottom seams. Leave a turning opening at the side seam of the lining fabric!

Now the **corners of** all parts are **sewn** for the floor depth. For this purpose the sides and bottom are placed on top of each other. It is important that the seams meet each other.

In the next step, turn your out Organizer of the outer fabric so that the "good side" is visible on the outside. Fold the bias tape in the middle, pin it to the seam at the centre back and sew it tightly in place. The loop points downwards, towards the bottom seam

Now insert the cuttings Organizer from the outer fabric right sides together into the lining silo and sew the edges together

Finally, turn it Organizer through the **turning opening on** the side seam of the lining fabric and sew the turning opening closed. The best way to do this is the magic stitch. Iron if necessary and you have a practical storage bag for all kinds of small items

In our decoration example we have Organizer sewn another one and attached these two to the wooden plate. If you wish, you can paint the wooden plate with handicraft colours before hanging up the utensils. Then they Organizer can be hung up decoratively and you always have everything to hand.

Must Have

Cotton fabric "La Belle" Papillon

Motif size: 1 cm
Fabrics by the meter
Grammage: 115 g/m²
Width: 150 cm

8,29 € (1 m2 = 5,53 €)
