## Stern-Anhänger mit Stoff-Steif

## Instructions No. 680

With the help of **fabric stiffener**, you can easily **conjure up stable Christmas tree pendants** from any soft fabric. This tutorial is an example of how to make pendants from fabric with stars or other shapes.

## Here's how it works

Cut the fabric into pieces.

Pour the fabric stiff into a container, completely submerge the cut pieces until they are completely soaked with the liquid.

Then wring them out and spread them out smoothly on a surface covered with foil.

Leave to dry overnight.

Make templates for the different stars using the templates.

Transfer the outlines with the line-ex pen to the hardened materials and cut them out.

Cut out the stars with the Pearl-Border the pen and let it dry.

Glue two stars of the same size against each other with hot glue, while placing a loop from Raffia in between.

Decorate with orange slices and buttons.

Fabric stiffener is suitable for many creative ideas. Read about this topic also the idea **Christmas card with fabric-stiff** or the idea candle decoration **with fabric-stiff**.
