

Stylish planters made from creative concrete

Instructions No. 1463

Difficulty: Advanced

Working time: 45 Minutes

Concrete is an incredibly versatile material that can do far more than just fulfil the basics of construction. With a little creativity and craftsmanship, you can create decorative containers for your green plants in no time at all. These homemade concrete planters not only give your home a modern, industrial look, but also offer a durable and unique way to express your love of plants.
