## Summery metal ring

**Instructions No. 1962** 

Difficulty: Beginner

Working time: 30 Minutes

In summer, fresh and bright colours ensure a good mood. This summery decoration with metal ring is the perfect eye-catcher in your own four walls. The metal ring also cuts a fine figure on the front door as a door wreath and welcomes your guests in style.

## It's as simple as that:

Start by **wrapping** the **metal ring** with two different jute cords. The ends can easily be **fixed** with some **hot glue**. Alternatively, other and more colours than in our example are possible

The lettering "Summer" is also fixed to the ring with hot glue. Arrange the individual leaves and Embellishment and fix them with glue

At the end there is a **Ribbon** attached as a suspension

If you like you can also **Cord** at the bottom by tying one Ribbon at the bottom of the ring. You can **attach** or thread **furtheEmbellishmentr** beads or beads to this ring as you wish. Or how about a **small sign with** the names of your family?
