Suncatcher with pearls

Instructions No. 2983

Difficulty: Beginner

Working time: 3 Hours

This suncatcher made of beads and small metal parts is a particularly fascinating decoration for your home. As soon as you loop it by the window, the sun's rays will refract in the beads and project magical light reflections onto the wall. Let our idea inspire you to create your own suncatchers.

Craft according to your personal taste

Design your suncatcher as you wish with the pendants and beads. Connect all the parts with the split rings.

You can easily shorten the anchor chain using side cutters or simple scissors. Pull the beads onto the chain pins and twist the end into an eyelet with the jewelry pliers so that you can attach a split ring. The finished chains are then hooked onto the screw eyes and these are then twisted into the driftwood .

Finally, hang the suncatcher in your home and enjoy the play of light you have created yourself!

Must Have

Pearl Box, Multi-Color

Weight: 90 g
Material: Acrylic

4,99 € (1 kg = 55,44 €)
