Difficulty: Beginner

Working time: 3 Hours

The New Year is already in the starting blocks and this has to be celebrated properly on New Year's Eve. Of course, the right decoration must not be missing! In this tutorial, we show you how to make decorative elements that wish good luck.

Atmospheric table decorations for New Year's Eve

This is how you create the individual elements for your table decoration for New Year's Eve:

Embossed shamrock

Cut out the pre-cut shamrocks from the "Lucky shamrock for you" napkin. Prime one piece of the embossing foil with white craft paint and leave to dry.

Then coat with napkin varnish, place the shamrocks on top and coat again with napkin varnish. Leave to dry.

Cut out the shamrock with the tweezers.

Place the shamrock with the motif side down (the golden embossing foil is visible) on the special mat and go over the foil with the embossing pen in circular movements. Press down lightly. This creates the desired 3D effect.

Stamp a lettering on photo cardboard and cut it out with the tweezers. Stick onto a gift tag with 3D adhesive pads. Accents can be added with a white Posca marker. Now stick the embossed shamrock onto the tag with craft glue and leave to dry.

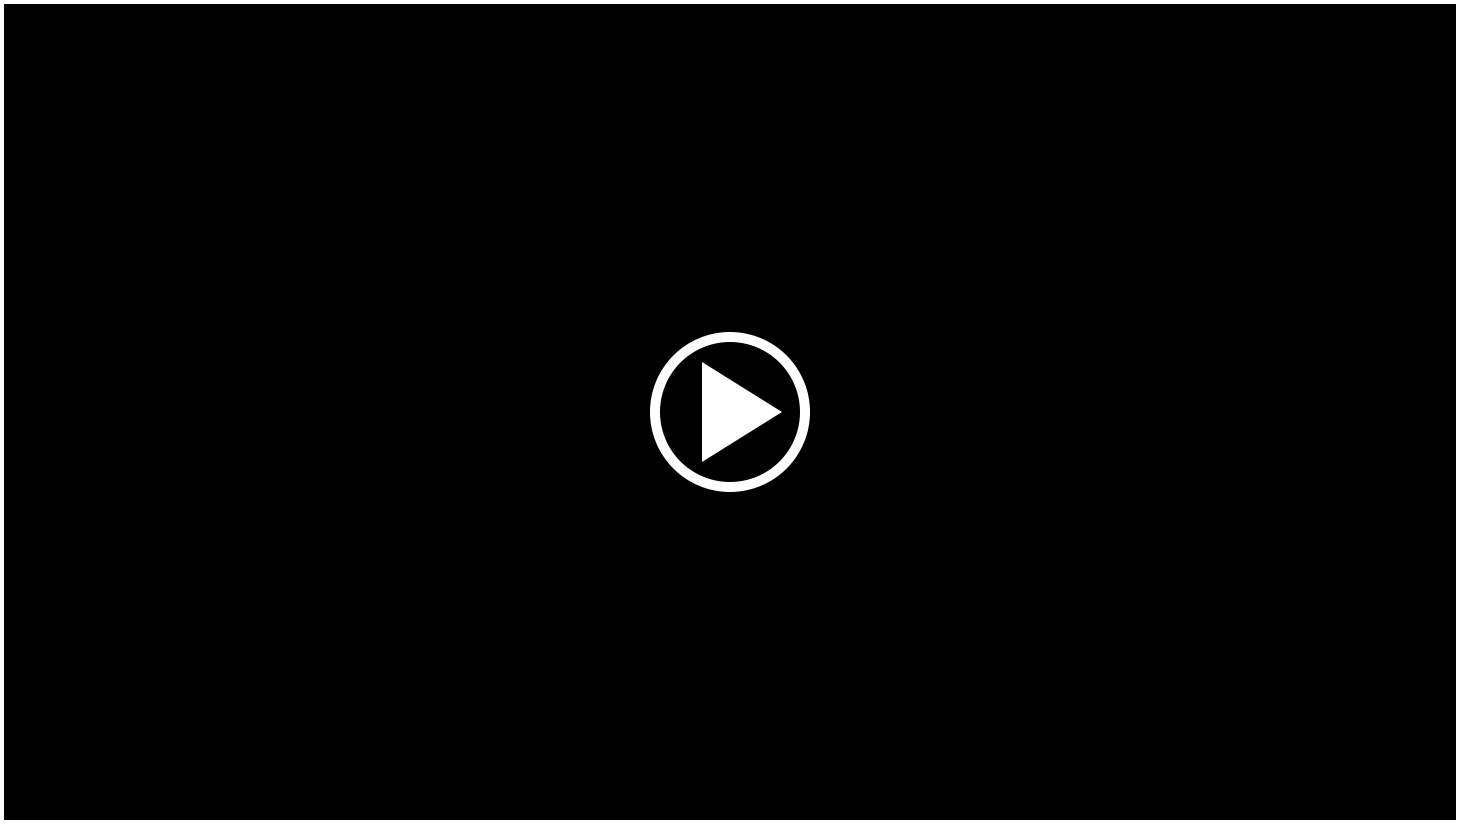

Clip the gift tag onto the memo holders and insert them into cupcakes, cakes or other treats.

Make a candle

Cut your desired motif out of a napkin.
Tip: If you carefully cut out the motif with your fingers, you will have smoother transitions than if you cut out the motifs with scissors.

Stick the top, printed layer of the napkin onto the candle with Candle Potch. Allow to dry.

Finally, arrange everything together on the table.
