## Decorate an Advent tray with metal candle holders

**Prepare the fir greenery and arrange the base**. Line the tray with fir branches so that the surface is nicely filled. Trim the branches as needed so that nothing sticks out and the shape looks neat. Secure the greenery in places

with hot glue. Hot glue sets quickly as it cools and reliably holds the materials in place.

**Incorporate Natural Advent Decorations** Now decorate with ornaments, cinnamon sticks, and dried orange slices. Arrange the elements in small groups so that the Advent arrangement on the tray looks lively but not cluttered. cinnamon and orange add a natural look and are perfect for Advent, while the baubles stylishly complement the metallic look of the kandelaar .

**Inserting and securing the candles** Place the taper candles in the candleholders. Make sure the candles stand straight and that nothing is too close to the flame on any side. This way, your Advent arrangement remains decorative while also being practical for everyday use—on the sideboard, the dining table, or the windowsill.

**Fine-tuning for a harmonious look** Finally, check the balance: If one side looks heavier, move a ball or add an orange slice. Small adjustments make all the difference, ensuring your Advent tray with metallic accents looks harmonious and elegant.
