Unique Christmas Cards

Instructions No. 1718

🖌🖌🖌🖌 Difficulty: Beginner

🕐 Working time: 30 Minutes

This collection of different **Christmas cards** contains many different DIY ideas, all of which are easy to tinker with and will certainly go down well! Choose your favourite cards and make your own greeting cards!

Magic Paper Card

Magic paper is a fascinating Paper, paper on which a pattern is printed with a special lacquer layer. Use a piece of magic paper and paint it with**Watercolour**. A fascinating negative motif is created on the Aquarelle-background. Arrange this Paper together with cut out glitter paper, with Cotton cord and little bells on your greeting card and then stick everything with double-sided glue.

Tinkering with stamps.

…with punches,…

…with punching motifs

With few aids you can achieve a great effect

For the **nature card with stamp motif**, first cut a card in the size 13.5 x 27 cm, fold it in the middle. With this you have a double card. Cut a piece of aluminium-Craft foil to 9.5 x 11.5 cm and stick it in the middle of the card. Cut another piece in the Natural paper size 8 x 10 cm and stamp your motif on this piece. Glue it with 3D Glue pads onto the aluminium-Craft foil and decorate it with half pearls.

The **linen card punched** is a great example of a simple craft idea that looks very good and professional. The linen card in natural colour is folded in the middle and the fir trees are punched out. Under the punching dies, coloured Coloured paper glue is stuck into the card. Paint the card with handlettering and finally decorate it with small stars.

You can achieve even easier results **Christmas cardswith punching motifs**. These are already pre-punched in the punching block, must still be only removed and glued to the card.

The self-designed **XMas card with a pearl garland** is especially noble. Simply cut and fold mother-of-pearl cardboard into a 12 x 12 cm double card. Silver glitter paper is cut to 10 x 10 cm and glued to the card.

Draw Paper a pointed triangle and use it as Stencil the bead Christmas tree. On a 9 x 9 cm piece of card, **drill** holes at regular intervals with a tingling needle. Pull an **aluminium wire** through the holes, thread wax beads on the front of the card **and** twist the ends of the wire on the back. Now only punch out a glitter star, glue it on, fix the **threading card as a** highlight with 3D on-Glue pads the Christmas card - ready is the noble card!
