VBS Creative set "Wood bunny"

Instructions No. 2101

Difficulty: Beginner

Working time: 2 Hours

Bunny rabbit jumps... let these cute bunnies hop around your home. Thanks to our **VBS Creative Set**, which contains all the materials for **10 bunnies**, this is very easy. All you need is some glue and a fineliner for the eyes. These bunnies are also great for spending a nice creative day with children who will love to make the funny little bunnies.

This is how the bunnies are made:

For one bunny, glue a 40 mm and a 30 mm wooden ball together using hot glue. The holes should be facing up and down. This makes the bunnies stand more stable and the ears can be glued into the holes later.

Take the template and transfer it to the coloured felt plates. Now cut out the ears and glue the lower corners left and right together with some hot glue. Now put the ears into the hole of the 30mm ball and fix them with some hot glue.

Glue the bows and the small wooden bead for the nose to the bunny. The holes of the wooden bead have to look to the left and right, so that the whiskers can be fixed in them later. Cut pieces of enamelled copper wire about 8 cm long. Of these, three for the whiskers per rabbit are pushed into the wooden bead and glued with hot glue shortly

before the drill hole. When everything has dried well, you can bend the individual wires as desired. With the help of a bamboo skewer you can create beautiful curly hairs by wrapping them around the skewer.

Finally, the eyes are painted on. It is best to paint them delicately with a pencil and then apply fineliner.
