

# Vogelhaus mit Serviettentechnik

**Instructions No. 400**

Difficulty: Advanced 

Working time: **30 Minutes**

Napkin technique in its most beautiful form: The pretty bird house is directly pasted with various motifs, others get a great three-dimensional effect through aluminium sheeting. Since all the paints and varnishes used are weatherproof, there is nothing to stop them from being used in the garden.

### It's that simple

Unscrew the flap and put it aside.

Then prime the birdhouse and the stand in beige.

After drying, wipe the surfaces with a Paint sponge ivory-coloured brush and paint the edges maroon.

Glue leaves, mushrooms and two squirrels with Napkin varnish on white primed aluminium sheet.

After drying, cut out the contours accurately and follow the contours from the front with the small metal pressing tool, then emboss from the back.

Glue the remaining napkin motifs on the birdhouse and roof.

Stamp the surfaces of the birdhouse and the stand with different motifs. Place the silicone stamps on the acrylic block and print the Ink Pads on it

Fix the distinctive napkin motifs with hot glue

Finally, remount the flap and screw the birdhouse onto the stand.

### Spray glue "Non-Permanent 404

This spray glue does not make it easier for only to stick on large motifs, even smaller motifs can be placed precisely. The special thing about it: The napkin motif can be removed and repositioned several times until it lies crease-free and in the right place. Afterwards it is sealed as usual with Napkin varnish . Since the thin Paper is then already bonded to the surface, it no longer warps and cannot tear.

## Metal spinning

Cut Metallic foil in the shape of your napkin motif and model it a little. The glued-on napkin motive gets stability through the Metallic foil and looks especially plastic

## Stamping

Place stamp motifs on bird house and wooden stick. This gives your decoration that special something.
