The wreath is created so simply

This beautiful wreath does not **require** much material, time and effort. In only one hour you too can create such a wreath for your home. Perfect as a door wreath in late summer or autumn, but also as an eye-catcher in the living room or bedroom. You simply choose **different dried flowers**. We have chosen **EucalyptusLagurus**, **pampas grass** and **straw flower heads**

The selected **dried flowers and stems** are first **placed** on the embroidery ring in the way you like it best. The flowers are tied around the ring with **winding wire**. **Tip:** The embroidery ring can still be attached in advance with **Handicraft paint** design. The **straw flower heads** are **glued on** with **hot glue**

Finally, cut a longer piece from **Jute ribbon** and tie it to the wreath for hanging. Now you have to find only a suitable place for the wreath.
