Anchor Crafty 250g - Art. N° 4774000 - * (Colour n°)

Intermediate

25 cm x 16 cm Small Feathers
35cm x 21cm Big feather

EXTRA:
Liquid Starch
Stick 60cm

1x *00116 (A), 1x *00108 (B), 1x *00106 (C)

n° 18

MILWARD

Feathers

KNOTS USED

Lark knot
Scalop knot
Square knot

STEPS

STEP 1: Cut 3 cords in colour A , 2 cords of 2m and 1 cord of 1m.

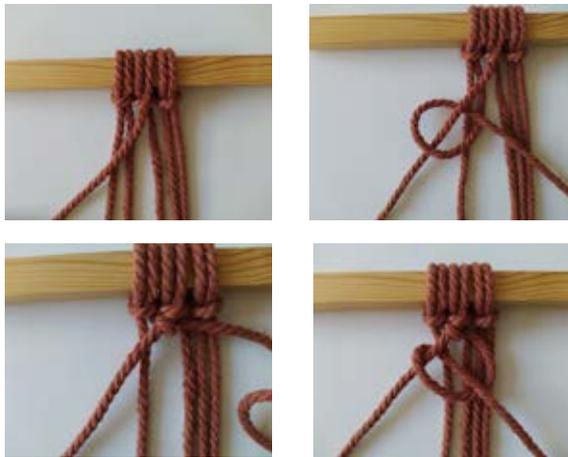

STEP 5: Repeat steps 3 and 4 to the right side.

STEP 2: place the cords with lark knot. The 1m cord should be place in the middle of the other two.

STEP 6: Make an square knot.

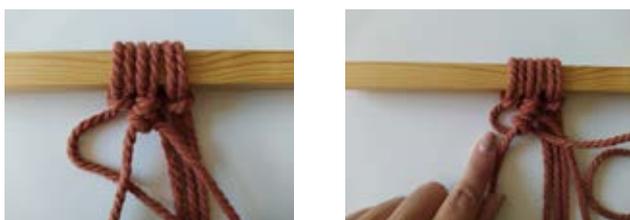

STEP 7: Tie scalop knots to the middle direction and join the in the middle.

STEP 3: Use the middle left cord as a guide and make a scalop knot to the left with the first cord to the left.

STEP 8: Repeat steps 3 to 7 until you have 3 diamonds in your feather.

STEP 4: Repeat step 3 with the next cord, but this time made it a little bit loose to leave a bow.

STEP 9: Cut 16 cords (20cm each) and place them in the bows, 2 in the top, and three in the others with lark knot.

STEP 10: undo the cords one by one and brush them.

STEP 11: with the brush and the liquid starch wet the fringes and brush giving them shape.

STEP 12: you can draw a feather in a paper and use it like a template to cut the feather. Do it when the fringes are totally dry (24 hours approx.)

STEP 13: Repeat all to do the second small feather in colour B.

STEP 14: to make the big feather you should repeat all the steps, the difference is that you are going to cut 2 cords of 3 meters and 1 of 1 meter in step 1, tie 5 diamonds instead of 3 and cut 24 cords of 40cm for the fringes. You can put your work with the two feathers upside down and work the third one easily.

WASHING ADVICE

Always wash in as warm a water temperature as possible - up to the temperature recommended, with a short spin. Use a lot of water if hand washing. For darker colours we recommend the use of discolouration sheets. Do not bleach. Do not tumble dry. Drip-dry on a horizontal surface. Iron on a hot temperature setting using a damp cloth. Professional dry cleaning in tetrachloroethylene.
