Anchor Crafty 250g - Art. N° 4774000 - \* (Colour n°)

Easy 

 14 x 9 cm

**EXTRA:**  
1 keychain hook.

 1x \*00108 (A), 1x \*00112 (B)

## Colourful feather keychain

### TO MAKE THIS MACRAME KEYCHAIN FEATHER YOU NEED:

- 1 rope of about 40 cm of a colour A.
- 6 ropes of about 24 cm of colour B.
- 4 ropes of about 24 cm of colour A.

### INSTRUCTIONS:

- Fold the long rope of colour A in half.
- Insert it into the hook. This will be the center rope.

- Take a rope of colour B.
- Fold it in half and pass the loop under the center rope.

- Take another string of colour B and fold it in half. Insert the loop inside the loop of the other string, from right to left and bottom to top.

- Take the ends of the first rope in colour B and pull them through the loop of the second rope.

- Stretch the ends of both ropes of colour B, and leave the knot under the hook.

- Repeat the steps with the remaining ropes of colour B.

- Repeat the steps with the strings of colour A.

- Now make a double knot with the long central ropes (colour A) so that the

- rest of the strings do not come off.
- Fray each of the ropes by unscrewing the rope.

- Comb all the ropes with a pet comb or brush, shaping the feather. You can use a paper so as not to scratch the surface of the table.

- Cut with sharp scissors, giving the final form to the feather. It is better not to cut too much in the first cuts, to be able to cut and rectify in the following cuts.

- Once combed, add hair spray, to fix the threads and make them move less when cutting them.

- You can use the pen to decorate a bag, or a keychain!

#### WASHING ADVICE

Always wash in as warm a water temperature as possible - up to the temperature recommended, with a short spin. Use a lot of water if hand washing. For darker colours we recommend the use of discolouration sheets. Do not bleach.  
Do not tumble dry. Drip-dry on a horizontal surface.  
Iron on a hot temperature setting using a damp cloth.  
Professional dry cleaning in tetrachloroethylene.
