Easy 

## Dog Leash

### KNOTS USED:

Braid knot  
Hangman's knot

### PREPARING OUR WORKSPACE

To carry out this work, it is advisable to do it by hanging the hoop from a macrame frame, rack or coat rack, or any part of your house with light where you can hang it.

When working with such long ropes, it is preferable to hang them high, and work standing or sitting.

### BEFORE STARTING

Cut 2 ropes (6 meters each) and 2 ropes (150cm each).

### STEPS

**STEP 1:** Leave 20cm and hold with a regular knot the ropes, put the 150 cm ropes in the middle.

**STEP 2:** Start with a **braid knot**, put the left rope fold in front of the other ropes and hold it, take the right rope and pass it in front of all and go around the strings and pull it out to the front.

**STEP 3:** Continue making braid knot until the end of the guides cords (150cm). Be careful not to mix the right string with the left string.

**STEP 4:** Cut the long ropes and use the strings to make the next steps. Use one of it in the beginning of the leash, hold the work 20 cm and make a hangman's knot.

**STEP 5:** Pass the ropes through the clip and make a hangman's knot with one of the cut strings from last step.

#### NOTE:

Due to the fact, that Crafty Fine yarn is recycled from colour-assorted textil material and re-dyed there can be slight variations in color and thickness. We therefore recommend buying enough yarn for your project. We also advise to use a crochet needle without handle, wich is easier to work with. The first stitches might be a little bit hard to work, but you will soon get used, and the final result is worth it.

#### WASHING ADVICE

Always wash in as warm a water temperature as possible - up to the temperature recommended, with a short spin. Use a lot of water if hand washing. For darker colours we recommend the use of discolouration sheets.

Do not bleach.

Do not tumble dry. Drip-dry on a horizontal surface.

Iron on a hot temperature setting using a damp cloth.

Professional dry cleaning in tetrachloroethylene.
