

# Stylish Christmas Trees in Black-White Design

Instructions Nee. 436

Difficulty level: Beginners 🎨🎨🎨🎨

Working time: 30 Minutes

That doesn't mean Gold is always Red, a consistent black-white Christmas decoration looks very noble and can be fantastically integrated into many living spaces. In the section of ornaments and scrapbooks you find a large selection of suitable ornaments, papers and beads, which can all be combined beautifully. A nice alternative to the green Christmas tree are these stylish bowling balls, which sit on candle holders. The black-white ornaments are connected by silver and white light points Pailletten.

## So it works

Make suitable templates for the cones Paper. Bring these with the masking pen over the fabric and the decorative fabric and cut the shape out. Secure the loose flaps with tape on the cones and secure them extra with Spelden.

As an alternative you can use Décopatch on the cone paper.

Decorate the cones to taste with ornaments, strings Pailletten and ribbons.

On the third cone place the spirally wrapped Chenilledraad and secure it with decorative Spelden.

**Belangrijk:** The slats are made smaller towards the top. To make the cones, set the silver wooden stars on Kantwerk. Secure them with two stars with hot glue on a piece of wire.

## This idea is timeless!
